

Extended IT-Solutions and Services across Europe

## CENTRIC INONE ROMANIA

Centric InOne Romania (formerly Algoritma.ERP), JD Edwards partner for Romania since 2000, won its prestige on the local market through participation in many IT projects done for multinational companies. Translating and localizing for Romania the B8.0 and B9 version of JD Edwards gave the company its first recognition in the ERP field. Presently our company has developed and maintains localizations/translations for both JDE E1 and JDE World.

### Profile

Centric InOne Romania is part of Centric BV, Netherlands, a leading European IT services and consulting company. The Group is headquartered in Gouda (Netherlands) employs approximately 9,700 employees and is represented in Europe and the U.S. on its own subsidiaries and partners.

Centric InOne Romania became Oracle Partner and IBM ISV Partner in 2005. Centric InOne Romania partnerships with Oracle and IBM further certify the quality of our services:

- Consultancy and implementation services for Oracle JD Edwards ERP suites;
- Training for JD Edwards products;
- Translation/localization for JD Edwards enhancements;
- Technical support for JD Edwards users.

Our team consists entirely of truly talented professionals. When you utilize one of our consultants you will save time and money during the course of your project, and the overall outcome will be far superior.

Our consultants have the experience and creativity to bring genuinely innovative ideas to your JD Edwards EnterpriseOne and JD Edwards World ERP systems, no matter whether you are just getting started or are a long time JD Edwards user.
