

Extended IT-Solutions and Services across Europe

## ONEGOLIVE SERVICES

Onegolive is an Oracle Certified Partner which is specialized in the implementation, deployment and support of applications such as JD Edwards EnterpriseOne and Oracle BI. Our main objective is to offer first class business software for our customers to increase their competitiveness and capabilities.

### Profile

Founded in 2008 in northern Spain by a group of professionals with years of experience working on international JD Edwards projects. It has positioned itself as one of the Spanish companies that has more expertise working with this ERP. Our team has been working with ERP systems since 1995, having participated in more than 50 implementations in 13 different countries for more than 1.500 users. Last year we have hired new experts in other applications like Oracle BI and CRM On-Demand.

Our extensive experience over the last few years in after-startup support of an ERP has enabled us to create a methodology and tools to give companies an optimal response level.

This support includes solving incidents in the installation and functioning of the applications, in order for our customers to use our products in an optimal manner, as well as solve doubts about the use of the products.

During the last years, we have consolidated our company as one of the few Spanish consultant firms with the ability to execute major JD Edwards EnterpriseOne projects across the European continent.

Extended IT-Solutions and Services across Europe

## Offer

### Oracle Accelerate solutions for OEMs and equipment

The production of capital goods required complex production processes, in which to achieve a finished product it is usually necessary to collect a large number of pieces and parts provided by different suppliers.

Manufacturers need to have systems that allow them to innovate in both processes and products. With a proper information management they can plan its production and processes, while controlling costs.

Onegolive using his extensive experience and expertise in this sector. Onegolive has developed an JD Edwards Accelerate solution that meets the operational needs of your company and incorporating industry best practices. The JD Edwards Accelerate solution adapt their processes in record time, improving productivity and reducing costs..
