

## Technical Development Consultancy Overview

All of our developers have at least five years of PeopleSoft® EnterpriseOne (Formerly J.D. Edwards) development experience on either EnterpriseOne or EnterpriseWorld. They have participated in all phases of implementation projects for organizations of varying sizes, both domestically and internationally, these have included all of the following PeopleSoft/J.D. Edwards suites: Finance, Distribution, Manufacturing, Property Management, Advanced Warehousing and Transportation Management.

Our developers possess tremendous creativity and hard earned experience in finding innovative solutions to complex problems.
