

[Inone Distribution Consultancy Overview](#)

Our consultants are results-oriented senior-level distribution and supply chain applications experts with outstanding communication skills. They are experienced in high value PeopleSoft EnterpriseOne and PeopleSoft World (Formerly J.D. Edwards World and OneWorld software implementations, business process transformations and re-engineering. Each of our consultants possesses excellent project management, analytical, and problem-solving skills combined with exceptional leadership ability.

Each consultant brings with them a strong history based on many years industry experience of evaluating business flows and configuring PeopleSoft/J.D. Edwards software systems to optimum effectiveness, thereby increasing productivity, improving efficiency, and reducing costs.

Our Distribution Consultants' extensive experience gives them a thorough understanding of the PeopleSoft EnterpriseOne/J.D. Edwards Distribution Processes and Table Structures.

They will lead projects for you in:
